How do you wish to share your video?

Your video has been successfully saved in your VideoCenter at VideoShare. You can find this video under the VideoShare World Wide Web site (<http://www.videoshare.com>) where you can browse and maintain your collection of videos.

Do you wish to share this video with friends and family right now?

810 Share as a video mail

Sending a video mail will use your email browser to send this video to your friends and family.

820 Share as a video greeting card

Sending a video greeting card will bring you to the VideoShare Video Greeting Card site.

830 Share through ICQ messaging

Share this video through ICQ Instant Messenger

840 Take me to my VideoCenter

You can also go to the My VideoCenter site where your video is currently stored. From here you can also share videos and maintain your video account.

850 Put HTML code in my clipboard

This feature will place HTML code in your clipboard to reference this video. You can then paste this code into an HTML document to automatically play this video.

860 Nothing, I'll share this video later

If you do not wish to share this video right now, you can return and record another video.
